Walking route for your information:

The route will begin at the hotel, heading down Avenida da Liberdade – often referred to as Lisbon’s “Champs-Élysées” – towards Rossio, which is the main square in the city’s downtown area.

Along the way, participants will be able to spot São Jorge Castle overlooking the historic centre. From Rossio, the group will make their way back up towards the top of Parque Eduardo VII, a viewpoint offering beautiful views over the Tagus River and the southern bank.

Approx 5.5km - 6km walk in total.
